

May 9, 2017

Dear friends and family,

This summer (August 5 - 8), I am traveling by bicycle from Pittsburgh to Hancock, Maryland on the Great Allegheny Pass. Although I anticipate the scenery will be beautiful and the company uplifting, this is not the primary purpose of this trip. I am participating in the **4th Annual P.E.T. Adventure**. It is the hope of those who ride to raise awareness and financial support for a volunteer only organization that makes and sends specialized **Personal Energy Transports (PETs)** to the disabled in developing countries at no cost to the recipient. At times the turmoil and negativity in our nation and world seems overwhelming. Can you imagine what a gift of a PET means to one unable to walk, or work, or leave their own home? Their world is forever changed! These specialized carts open up opportunities for people struggling with hunger and poverty, and make their world a place of promise and hope.

Partner with me, and change the world on life at a time.

Sincerely,

Kindly make your checks payable to PET Carlisle Inc. Thank you in advance for your support.
